

APPLICATION VISUALIZER

The screenshot shows the GramSheba AI mobile application interface. At the top, there's a dark header bar with the app logo and a "GramSheba AI" title. Below the header is a large, light-colored central area. In the top left of this area, it says "Welcome to GramSheba AI" and "Your health companion, powered by AI". A button labeled "AI Models Ready" with a checkmark icon is visible. Below this, under the heading "Quick Actions", are four cards: "Check Symptoms" (AI-powered symptom analysis), "Record Vitals" (Monitor your vital signs), "Learn About Health" (Access health resources), and "Consult Doctor" (Request telemedicine consultation). Further down, there's a section titled "Recent Activity" with two cards: "Recent Symptom Checks" (listing "Common Cold" checked on "Dec 28, 2025 - 15:48") and "Recent Vital Signs" (noting "No recent vitals recorded"). At the bottom of the screen is a navigation bar with icons for Dashboard, Symptoms, Vitals, Visual Scanner, and Education. On the right side of the screen, there's a small message: "Activate Windows" and "Go to Settings to activate Windows."

This screenshot shows the "Symptom Checker" feature within the GramSheba AI application. The top part of the screen is identical to the home screen, featuring the "GramSheba AI" header and a navigation bar at the bottom. The main content area is titled "Symptom Checker" and includes a sub-instruction "Describe your symptoms below". Below this, there's a "Visual Scanner" section with a button to "Start Scanning". The next section is a text input field with placeholder text "e.g., fever, cough, headache...". To the right of this input field is a "Submit" button with a right-pointing arrow and a microphone icon for voice input. At the bottom of the screen, there's a note: "Note: This tool provides general health information and is not a substitute for professional medical advice. Always consult with a healthcare provider for accurate diagnosis and treatment." On the right side, there's a message: "Activate Windows" and "Go to Settings to activate Windows." The bottom navigation bar is identical to the one in the home screen.
